

X303 -2 Wire

Quick Installation Guide

English

Precautions

Warning: Please do not power cycle the device during system boot up or firmware upgrade. You may corrupt firmware images and cause the unit to malfunction.

Warning: Use only the power adapter included in the device package. Using an alternative non-qualified power adapter may possibly damage the unit.

Overview

X303-2 Wire phone is an upgrade from the existing IP phones in terms of power and network supply, adopting a 2-Wire connection. It features high-definition voice, rapid deployment, a 2.4-inch color main screen, four SIP accounts, and supports 2-Wire power and network supply, multi-party conference calls, among other rich functions. It also offers expansion capabilities such as connectivity to EHS wireless headsets. This 2-Wire IP phone can meet various application scenarios and provide a high-quality user experience.
